SUFFRAGE IN THE DISTRICT

Quarterly Meeting of the Republican Central Committee Last Night.

Speech by Hon, A. M. Clapp-Yigorous Resolutions Adopted.

The regular quarterly meeting of the republican central committee of the District of Columbia was held at Shea's hall last night. Hon. A. M. Clapp occupied the chair; Prof. J. M. Gregory secretary. Andrew J. Donaldson and James Record were appointed to the vacancies existing in the delegations from the nineteenth and twelfth legislative districts caused by the resignations of Phil Jultricts caused by the resignations of Phil Jul-lien and Arthur Shepherd. Mr. George Holmes, from the committee appointed at the last meeting last year to wait on the President and present the name of A. M. Clapp for dis-trict commissioner, reported that the com-mittee had performed that duty. Mr. Clapp thanked the committee for the interest they had taken in his behalf. The result was long ago known, and he had no fault to find, as the President no doubt consulted his own sense of duty in the determination of the question. At all events, Mr. Clapp said it was not reof duty in the determination of the question. At all events, Mr. Clapp said it was not regarded as good law practice to make an argument in a case after the decision had been rendered. The result is, perhaps, as fortunate as could have been expected in a district where the people have ceased to be citizens and are not recognized in the power of self-government. A city of one hundred and eighty thousand people, within sight of the national capitol, devoid of the right of suffrage, is without parallel in any republican form of government in the world. In view of these facts an important responsibility reats upon the republican central committee of the District of Columbia. That duty points to the recovery of the rights of citizenship, which we are denied. It has been said that the people of the district are satisfied with their present lot. If that be so there is no evidence of it, for that question has never been tested since congress, in its wisdom, disfranchised I fiell aspeedle. I have no doubt indeed I fiell aspeedle. for that question has never been tested since congress, in its wisdom, disfranchised this people. I have no doubt, indeed I feel assured, that there is a deep public sentiment here in favor of the right of suffrage and self government, and that that feeling is entertained without regard to political party distinctions. I am convinced that a large portion of the democrats of the district are ready to join hands with the men of any are ready to join hands with the men of any party in an effort to secure to this people the dearest rights of American citizenship—the right of being represented when they are taxed. I invoke the full co-operation of every member of this committee in behalf of measures that will lead to a restoration of all cormember of this committee in behalf of measures that will lead to a restoration of all our rights as American citizens. The prejudice of race and color may have something to do with inspiring an opposition to the right of self government, but so long as the constitution of the United States recognizes the colored man, equally with the white man, as an American citizen, no such objection should prevail with men of patriotic impulses and intelligent minds. Leaving this committee to shape its own conduct in such direction as its best judgment may dictate, I leave the question for its con-

may dictate, I leave the question for its con-sideration.

After Mr. Clapp had concluded his remarks,
Mr. I. H. Consum Gen. F. W. Whitehar. Mr. J. H. Crossman, Gen. E. W. Whittaker, Mr. J. H. Smith, Mr. George Holmes, and Mr. Andrew Gleason were appointed a com-mittee to draw up resolutions, and after re-cess of twenty minutes, Mr. Holmes reported the following:

the following:

Resolved, That the "bill of rights" of the state of Maryland, which was adopted by that state prior to the time that she ceded that portion of her territory known as the District of Columbia to the United States, provided that the right of sufrage should never be restricted within her borders.

Resolved, That it was expressly stipulated in cedling said territory to the United States that all rights enjoyed by the people of this district under the state of Maryland should continue to be enjoyed and held sacred to them and their descendants forever.

joyed and held sacred to them and their descendants forever.

Resolved, That the total disfranchisement of our people by the congress of the United States, under the late act providing a permanent form or government for the people of this district, is a liagrant violation of the contract by and between the United States and the state of Maryland, as well as a wanton disregard of the principles expressed in the Declaration of Independence, which is the foundation principle upon which the national government rests.

Resolved, That we are opposed to the present form of government in this district, and particularly protest against the appointment of democrats in any capacity to execute the laws under a republican administration.

Resolved, That we believe it to be the duty of all true republicans to sustain the position of Commissioner West in the board of district commissioners.

Commissioner West in the board of district commissioners.

Resolved, That we unqualifiedly condemn the
action of the republicans of the lowa delegation
in congress who indorsed a democrat for commissioner in the District of Columbia.

Resolved, That we will aid in every possible
manner the establishment of an elective government for this city, and we also recommend the
establishment of a daily paper to aid such movement in the interest of the citizens.

Mr. Holmsersid that the median commissioners in the citizens.

ment in the interest of the critzens.

Mr. Holmes said that the main argument against suffrage in the district was that the government paid 50 per cent. of the expenses of the district, and that that support would be withdrawn if an elective form of government was established. Mr. Holmes said that it seemed to him that the government owed 50 per cent. of the expenses under any form of government it was paying for, then the citizens of the district were swindling the government by receiving money they were

government by receiving money they were not entitled to. The resolutions were unan-imously adopted, and it was agreed to send a copy of them to the Iowa state republican committee. On motion of Gen. Whittaker \$25 was contributed by the committee towards defraying the expenses of the emanci-pation celebration, and on motion of Col. Perry Carson it was resolved to take part in the emancipation parade. The committee then adjourned until the second Tuesday in

Frauds in the General Land Office. The following article in an evening paper of Monday night might create a wrong impression if not modified and explained: The work of investigating frauds in the general land office has been transferred to the timber division, of which Mr. McKensie is in charge.

It might be inferred from the above letter that some frauds had been discovered in con-nection with the management of the general nection with the management of the general land office, or that so many of the clerks there were frauds that it was necessary to have a division to investigate them. Neither inference would be correct. There is not a bureau in any of the departments in which the business is carried on under more systematic business principles than it is in the general land office, and there is not a bureau in which the clerks are more faithful and conscientious in the discharge of their duties.

the discharge of their duties.

The information intended to be given by the paragraph is that there has been a new division created in the general land office entitled the special service division, of which Mr. A. G. McKensie is chief.

This division will have accounted to the service division of the division will be a service division.

Mr. A. G. McKensie is enice.

This division will have supervision over all special sgents appointed to investigate fraudulent land entries, and all cases of trespass ulent land entries, and all cases of trespass. upon the public lands, and will take such action upon the reports of the special agents as the interests of the government may require. Mr. G. V. N. Ogden is in charge of said division during Mr. McKensie's absence in the west on special service.

The Freedmen's Hospital.

The secretary of the interior has received the monthly report of the Freedmen's hospital prepared and submitted by Dr. Charles B. Purvis, surgeon in chief.

The doctor gives a very satisfactory and gratifying account of the work of the institu-

gratifying account of the work of the institu-tion for the month ending April 6.

To total expenditures for the month were \$3,834.84. The number of patients admitted during the month were: White males, 37; colored males, 43—80. White females, 9; col-ored females, 29—38. Grand total, 118. Births, 7; deaths, 22; stillborn, 1. Seven operations were performed.

A Sensation Blown Up.

Mr. West, British minister, says he was not swindled by anyhody, and did not pay money to anybody for information concerning a plot to blow up the legation building in this city.
His attention was called to the stories of such a plot, but upon investigation he found no reasons for suspicion. It was a purely sensa-

A prominent frishman in the city, speaking

of the matter last night, remarked that there was "no such bloody fool among all the Irishmen in America as would either harm the British minister or start such a story." He said it was a wonder somebody didn't start a story of a plot to blow up Minister Lowell in England to prejudice Americans.

The Applicants for Patents. Inventive genius is now exercising itself mostly in the field of electricity and electrical apparatus, the applications for this class of patents aggregating about 3,000 a year, whoreas a few years ago they numbered but a few hundred in that time. The rage now seems to be for secondary batteries or inventions for the storage of electricity. Edison still heads the list with the greater number of inventions, and sometimes he steps into the patent office and makes application for forty or fifty patents at once. Weston is close after him in the number of his cases. Last year Edison's invention, for which patents were applied, numbered 150. The ratio of applications granted is about 50 per cent, of the whole, which is somewhat less than in former years. This does not signify that inventive genius is degenerating, but that the various sciences are becoming more perfect, and the methods of examination and, testing far more thorough and efficient than of patents aggregating about 3,000 a year, testing far more thorough and efficient than formerly. Another favorite field for inven-tors nowadays is in the direction of fire escapes and also mental working machinery, in each of which classes the number of applications has increased in a marked degree.

Invasion of an Indian Reservation. Indian Agent Wilcox, of the San Carlos agoncy, in a telegram to Commissioner Price, says it is rumored that a company of rangers is being organized at Tombstone, and that the general indications point to an invasion of the San Carlos reservation. He adds that the result of such an invasion would be disastrous.

They Want a Special Session. A memorial has been sent to the President of the United States by the president and board of directors of the central committee on national labor legislation, petitioning for an extra session of congress to be called at as early a day as practicable, for the purpose of considering the relations between labor and

WANTED-DERMATOLOGY: A LIFE SPECIALTY. BY DR. J. VAN DYCK, DERMATOLOGIST,

708 Eleventh street northwest,

Washington, D. C. Cold weather akin diseases (pruring, intense) ing) begins at night as soon as the dothing is moved, and is increased by the warmth of the When a paroxyam of the liching somes on you that you must scratch or go wild. There is no e tion but that caused by scratching. It is worse it the waist to the ankles—affects both sexes after age of 3a. SYMPTOMS OF SKIN DISEASES.

age of 30.

Crusty Tetter.—The skin becomes inflamed, tendand small blisters form, burst, and form moist, ylow crusts; is accompanied with best, itchiness, a pain; breaks out on the backs of the hands and fi-gers, scalp, face, behind the ears, joints, and vario-parts of the body.

White Scaly Tetter.—The skin becomes dry, cracked, and scaly; affects the scalp, cibows, knees, limbs, body, eyebrows, and beard. Sometimes the entire body is affected with this annoying and distressing skin disease.

tire body is affected with this annoying and distressing skin disease.

Palmar Tetter.—The palms of the hands become dry, hard, thickened, fissured, cracked, painful, and sore. The same condition often affects the fingers and soles of the feet.

Soaly Scalp Tetter.—The scalp becomes tender, itchy, and covered with thin, fine, white scales, which form again as fast as removed. If allowed to continue it makes the hair thin, harsh, dry, fade, and turn prematurely gray.

Lepra.—Circular, white scaly spots appear upon the clows, knees, arms, scalp, and body. These spots vary in size from a cpit pes to an ordinary sized saucer. This is a lifetime disease unless thoroughly eliminated from the system.

The above and every form of skin disease, every complexion and hair blemish, defect, deformity, and discoloration permanently cured by Dr. Van Dyck, Dermatologist, 70s Eleventh street northwest.

COMPLEXION BLEMISHES.

discoloration permanently cured by Dr. Van Dyck. Dermatologist, 70s Eleventh street northwest.

COMPLEXION BLEMISHES.

Complexion Blemishes (Acnie).—Symptoms: white or red inflamed plupies form on the foreficial, cheeks, chils, nose, back, and breast; affect both sexes.

Comedonces.—Symptoms: The pores of the forehead, cheeks, and nose become illied with a white senceous substance, capped with black speeks, is often associated with an oily condition of the skin; is exceedingly annoying, and affects both sexes.

Liver Spots.—Are yellowish, brownish, dirty, muddy-looking spots on the forehead, extending to the hair, on the cheeks, and sometimes on the breast and hands. Liver spots are frequently associated with general sallowness of the face; mostly affects ladie between the ages of 20 and 40.

Redness of the Nose.—The nose becomes red and flushed from the least exciting cause, exposure to heat or cold, the use of alcoholic liquors and wing, anger, and so forth. At times there is great heat in the none. At first this redness disappears, but finally is becomes chronic. The velus become enlarged, and results of the face is obtained to carry the sign of hitemperance, whether he deserves it or not.

Freekles, Wrinkles, Moth. Tan, Sunburn, Sallowness, Coarse, Deep Fores, Moles, Birthmarks, are annoying complexion blemishes and discolorations and which readily yield to proper dertamological skill.

THE EYEBROWS AND EYELASHICS.

all of which readily yield to proper dertamological skill.

THE EYEBROWS AND EYELASHER.

There is more beauty in a pair of vigorous, regular, uniform, and well-kept eyebrows, long, drooping, curved, and bewitching eyelashes, than people are aware of. A very unattractive eye assumes new beauty and greater influence when it looks from beneath long, well-developed, fascinating fringes. In oriental countries these are considered to be the most distinguishing features of personal beauty, and a lady's lashes are unattractive if not long and drooping. Our society ladies acknowledge these to be a rare adjunct of beauty, by resorting to the use of pencil and brush to supply artificially this facial adormment which nature has failed to supply to them in sufficient quantity.

clent quantity.

Owing to the demand for his services in other cities hereafter Dr. Van Dyck will be at his Washingto office Monday, Tuesday, and Wednesday of each week only; hours, b. a. m. to 7p. m. Hereafter hope can be treated without a positive engagement
